# JORJ XENOS
## FULL STACK WEB DEVELOPER

## PROFILE

An experienced JavaScript developer with a passion for both frontend and backend frameworks, I learn and implement new languages with ease. I am hungry to continue honing my skills and to grow into a Senior Developer.

## SKILLS

| | |
|---|---|
| JavaScript | Android Development |
| HTML5 | OOP |
| CSS3 | SQL databases |
| jQuery | NoSQL databases |
| NodeJS | FTP |
| Java | Git/GitHub |

## DEVELOPMENT EXPERIENCE

**Platform Developer** | LiveTechnology Holdings | Tuxedo Park, NY

2014-2016, 2017-present

- Work with a team of agile developers to complete large client projects under demanding deadlines.
- Create and maintain an action library within a proprietary scripting framework.
- Design, implement, and test advanced login functionality for users of disparate client systems.
- Import large (40K+ records) CSV files into databases.
- Continuously maintain and refactor an extensive proprietary JavaScript library.
- Thoroughly test and debug my own and others' code throughout the full life cycle - within development, quality assurance, and live client systems.
- Mentor and oversee the work of Junior Platform Developers.

**Engineer Technician** | SUNY Research Foundation | Cobleskill, NY

2011-2014

- Programmed Allen-Bradley and Honeywell PLCs and HMIs with ladder logic.
- Collected and analyzed data for long run tests (6-8 hour spans).
- Developed technical documentation and analytical reports.
- Calibrated and operated laboratory instrumentation (gas chromatograph, thermal couples, RTCs, kilns, calorimeter, pressure sensors).

## ADDITIONAL EXPERIENCE

**Construction Crew Member (Siding)**
Bennett Construction | Albany, NY
2016-2017

**Landscaping Assistant**
Picturesque Landscaping | Carlisle, NY
2004-2011

## EDUCATION

**Bachelor of Technology, Web Application Development**
State University of New York at Cobleskill | 2008-2012

(518)-410-5050 · 850 Union Street, Schenectady, NY 12083
